**(54) RESIN COMPOSITION FOR POWDER COATING**

**(57) Abstract:**

**PURPOSE:** To obtain a resin composition for powder coating which can give a coating film having good blocking resistance and excellent appearance, weather resistance, mechanical properties and corrosion resistance.

**CONSTITUTION:** The resin composition comprises a normally solid epoxy resin (A) for a powder coating material, obtained by reacting an epoxy resin having at least one epoxy group on the average per molecule with a carboxyl- terminated polyester oligomer obtained by

reacting a polycarboxylic acid with a polyhydric alcohol and a polyisocyanate, and a polyester resin (B) having at least two carboxyl groups in the molecule.
